

Indoor plug G-type RTS ref: 2401524

What is Indoor plug G-type RTS ?

This remote controlled power outlet with ON/OFF function is used to control remotely lighting and electrical appliances. The power outlet is easy to use, plug the receiver into the electrical outlet and turn on or off the lighting with your smartphone/tablet with the *Connexoon RTS** box or the *Smart Home box TaHoma**. The power outlets can also be controlled by a Somfy handset, eg. Telis remote control. The power outlet is also equipped with an on/off button on the front.

The first step towards a smarter home is often through remote-controlled electrical outlets that can be easily expanded. With these remote controlled power sockets, you directly get products that are compatible with *Connexoon RTS** or *Smart Home TaHoma** - your hubs for the smart home of the future!

Advantages:

- Easy to install in your system
- Controls both lighting and electrical appliances.
- Simple and comfortable use.

* Sold separately
