3 – Earth

5A fuse to be used in either the plug top or fused spur outl

Optional Contact Closure Control

- There is a RJ12 port located at the base of the motor.
- An optional 2.5M long cable can be supplied that plugs into the RJ12 port with 4 wires to connect to a switching device (hard wired switch, home automation system, etc.).
- This control option is with volt free contact closure – impulse control (non-maintained contact).
- Contact us if this control option is required with your electric curtain rack purchase.
 - Email: info@poweredblinds.co.uk
